MANIA

ML MANIA

EVENT OVERVIEW

ML Mania is an ML based competition designed to improve your ML knowledge in the real world through various challenging fun tasks which require problem solving,critical thinking,strategic planning and team spirit. Each round will fill you with a memorable experience and different thinking for machine learning beyond your curriculum into the real life applications.

MANIA

PRIZE POOL
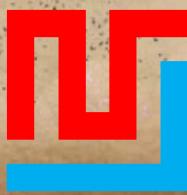

1st Prize: Rs.4000

2nd Prize: Rs.2000

3rd Prize: Rs.1000

HOORAY!!!

MANIA
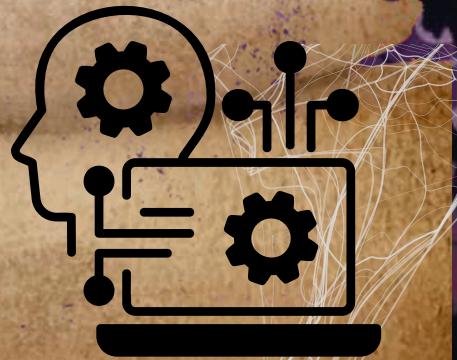

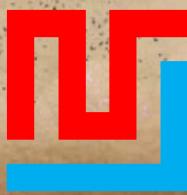

Round 0: Quiz

Mode: Online Duration: 30 mins
Date: 22-01-26 (Evening)

● This round will consist of a quiz based on ML and Coding Logic.

● Use of AI tools is strictly prohibited.

● Only one submission per team will be allowed.

● Slido quiz will be conducted.(Link for Quiz will be shared on Whatsapp Group).

● Participants should join the slido quiz according to their team name.

● According to the slido leaderboard, 20 teams will be qualified to the next round.

MANIA
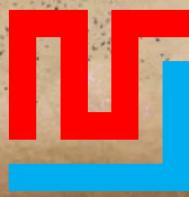

Round 1: The Glitch Hunt

Mode : Offline

Duration: 30 mins   Date: 23-01-26

● Qualified team will be provided 30 mins to work on provided code related to ML concepts.

● Teams have to optimize the code to the best of their ability to achieve the outcome provided by the volunteers on the spot.

● Any malpractices during the round will lead to disqualification.

● Teams have to pick a cheat before the start of the round to get their task.

MANIA

● Evaluation will be on the basis of the performance of the optimized code and the time taken to optimize the code.

● 20 teams will be divided into 5 groups. One winning team from each group will qualify for the final round.

● Use of AI is strictly prohibited.

● Indepth instructions regarding the round will be provided on the spot.

NOTE: In case of any disputes or exceptional situations, the organizing team reserves the right to take the final decision.

MANIA
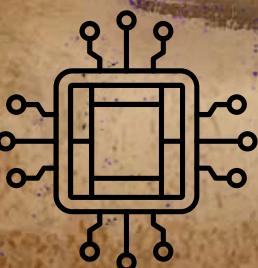

Round 2: Monopoly Wars
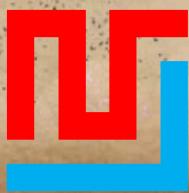

Mode: Offline

Duration: 1 hr

Date: 24-01-26

● The team will be split into 2 halves spenders and earners as per the team's decision.

● Each team will be provided a fixed purse of points for spending.

● Teams have to play a monopoly game based on Machine Learning (ML) or Deep Learning (DL) concepts which will involve purchasing assets by performing some tasks and spending the purse.

MANIA

● The game may involve many twists and turns which can lead to advantage or loss to a particular team.

● Evaluation will be on the basis of the number of assets purchased and the purse remaining.

● Indepth instructions regarding the round will be provided on the spot.

● In case of any disputes or exceptional situations, the organizing team reserves the right to take the final decision.

ML MANIA RULES:

A team of 3 or 4 members is allowed for the competition.
